Professional Summary

Recent Web Development and Internet Applications graduate from Algonquin College seeking a junior developer role to apply expertise in UI/UX design, MERN stack, and full-stack development to deliver innovative, user-focused solutions in a collaborative, fast-paced environment.

Relevant Professional Experience

UI/UX Designer

July 2022 – August 2023

Qrious Technology, Gujarat, India.

- Develop and implement a visually compelling website interface that ensures seamless navigation, robust accessibility, and elevated user engagement.
- Collaborate with cross-functional teams to integrate innovative, user-centric features while maintaining a consistent design language and professional aesthetics.
- Conduct comprehensive user research and usability testing to continuously refine functionality, applying industry-leading UX best practices to minimize friction and maximize operational efficiency.

Projects

Reader's Paradise

- Developed a library management system using **MERN stack**, **TypeScript**, and **Tailwind CSS** to streamline inventory and order workflows.
- Implemented role-based authentication with **JWT** and **password hashing**, alongside an admin dashboard for real-time inventory, alerts, and order processing using **Redux**.
- Enhanced performance with **database indexing**, ensuring fast, scalable queries for book management and inventory tracking.
- Improved page load time by **30%** with **lazy loading**

E-Transport(Android)

- Developed an Android rental app with **Java** and **Firebase** for real-time booking and data sync.
- Created a UI with **Google Maps API**, **OAuth sign-in**, and booking/history features.
- Implemented **role-based access**, admin dashboard, and **SHA-256 encryption** for security.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Java, C++, C#, SQL

Frameworks & Libraries: React, Node.js, Express.js, Redux, Tailwind CSS, .NET Core

Tools & Platforms: Git, GitHub, Firebase, Figma, Postman, JWT, Google Maps API
